

i-SUP 2010

**Innovation for Sustainable
Production 2010**

April | 18-21 | 2010
Bruges (Belgium)

www.i-sup2010.org

Objectives

“Greening the economy” is not just a hype. It asks for a fundamental rethinking of our consumption and production pattern.. We must seek to integrate product and process design, make a smart choice of materials, chemicals and energy used, to interconnect between industries both downstream and upstream but also with neighbouring industries and residential areas. Only then we will be able to really achieve the promise of a sustainable economy and development. This is not a path of ‘less’ but a path of ‘growth’ with respect for, and in collaboration with others. The very nature of sustainable development implies the interconnection and intertwining of economy and ecology going for revolution and not of evolution. Therefore this large international conference aimed at innovative sustainable production methods tries to intertwine different disciplines and methodologies.

i-SUP2010 will cover 6 separate international congresses at the same time and the same location, each aimed at a specific target audience of industry leaders, universities, research institutes and decision makers, covering such wide fields as :

- Sustainable Production;
- Sustainable Chemistry;
- Sustainable Energy;
- Materials for Sustainable Production;
- Carbon Capture and Storage (CCS);
- In Vitro Methods replacing Animal Testing (CARDAM).

Each theme holds the contents of a full-fledged congress with key-note speakers, abstracts, presentations, appropriate poster sessions and a distinct location. The unique feature of i-SUP2010 lies in assembling 6 full quality international congresses at one large, attractive site i.e. Oud Sint-Jan in Bruges. The stimulating atmosphere and the opportunity for meeting and seeing other disciplines, scientists or industries offers the added value of i-SUP2010 over single topic international conferences.

i-SUP2010 believes that this integrated approach of meeting and conferencing will bring great benefit to all participants. Looking forward to meeting you in Bruges.

Language

The official language will be English.

For information on the final programme, registration, abstract submission, social programme and sponsorship opportunities, please visit our website: www.i-sup2010.org.

General Information

Event Venue

April 19, 2010	Start of the scientific program
April 21, 2010	End of the conference

Organization

Overall Organizing Committee

The organization for the overall event is in the hands of VITO – the Flemish Institute for Technological Research – and MIP – the Environmental and Energy Technology Innovation Platform Flanders.

Scientific Advisory Board

The scientific advisory board is responsible for the selection of the presentations at the international event based on the submitted abstracts. For each of the six conferences and conference-themes a dedicated advisory board is set-up.

Conference Secretariat

Preliminary Programme

Scientific

The event offers 6 full quality conferences at the same location and at the same time. It is possible to attend one or more of these conferences and submit abstracts.

Conference 1: Sustainable Production

Conference 2: Sustainable Chemistry

Conference 3: Sustainable Energy

Conference 4: Materials for Sustainable Production

Conference 5: Carbon Capture and Storage (CCS)

Conference 6: In Vitro Methods replacing Animal Testing (CARDAM)

Plenary

The official opening of the conference starts on Monday April 19, 2010, at the site of Oud Sint-Jan in Bruges.

That evening, the official opening ceremony takes place at the famous Concert Hall in Bruges, where important international speakers will hold a keynote lecture.

A most exclusive concert will close the official opening ceremony of i-SUP2010.

Social Programme

Sunday, April 18, 2010

Welcome reception in the Town Hall of Bruges (included in the registration fee)

Monday, April 19, 2010

Walking dinner and concert in the Concert Hall of Bruges (included in the registration fee)

Tuesday, April 20, 2010

Unforgettable medieval evening at Celebrations in Bruges, dinner and drinks included (registration fee: 80 Euro)

Wednesday, April 21, 2010

Closing ceremony and Farewell reception at the site of Oud Sint-Jan, Bruges

For information on the final programme, registration, abstract submission, social programme and sponsorship opportunities, please visit our website: www.i-sup2010.org.
